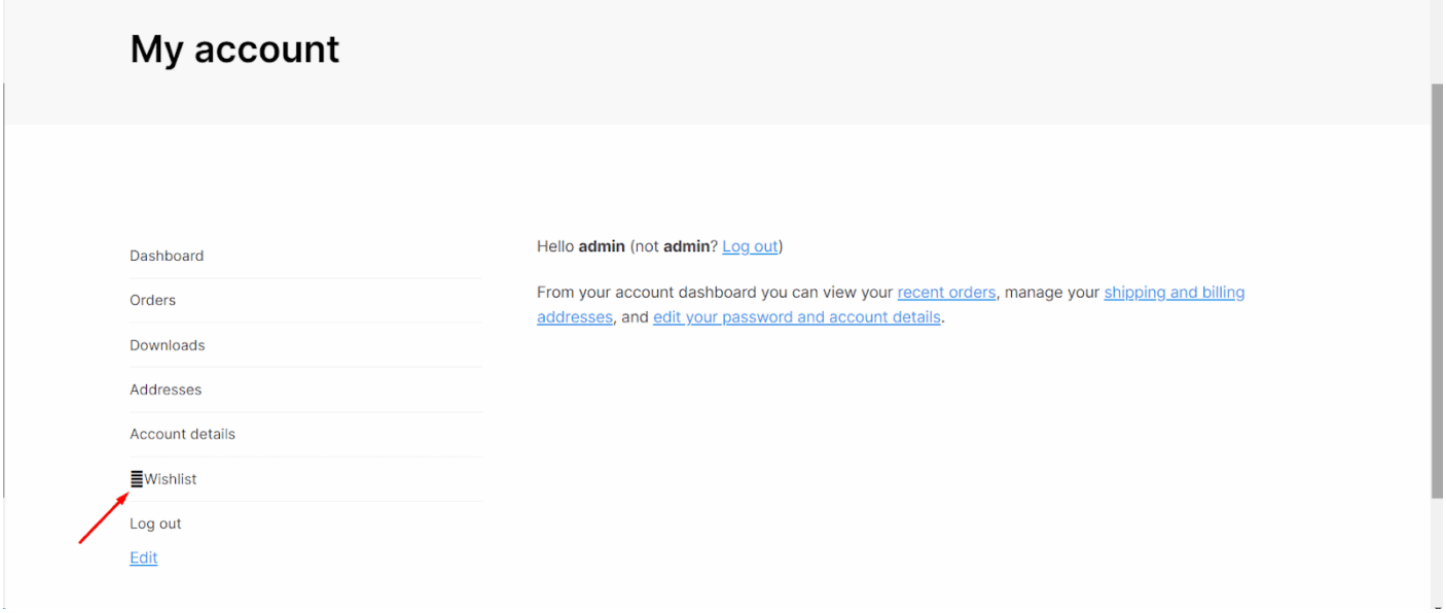
Adding Icons to Wishlist Tab in WooCommerce

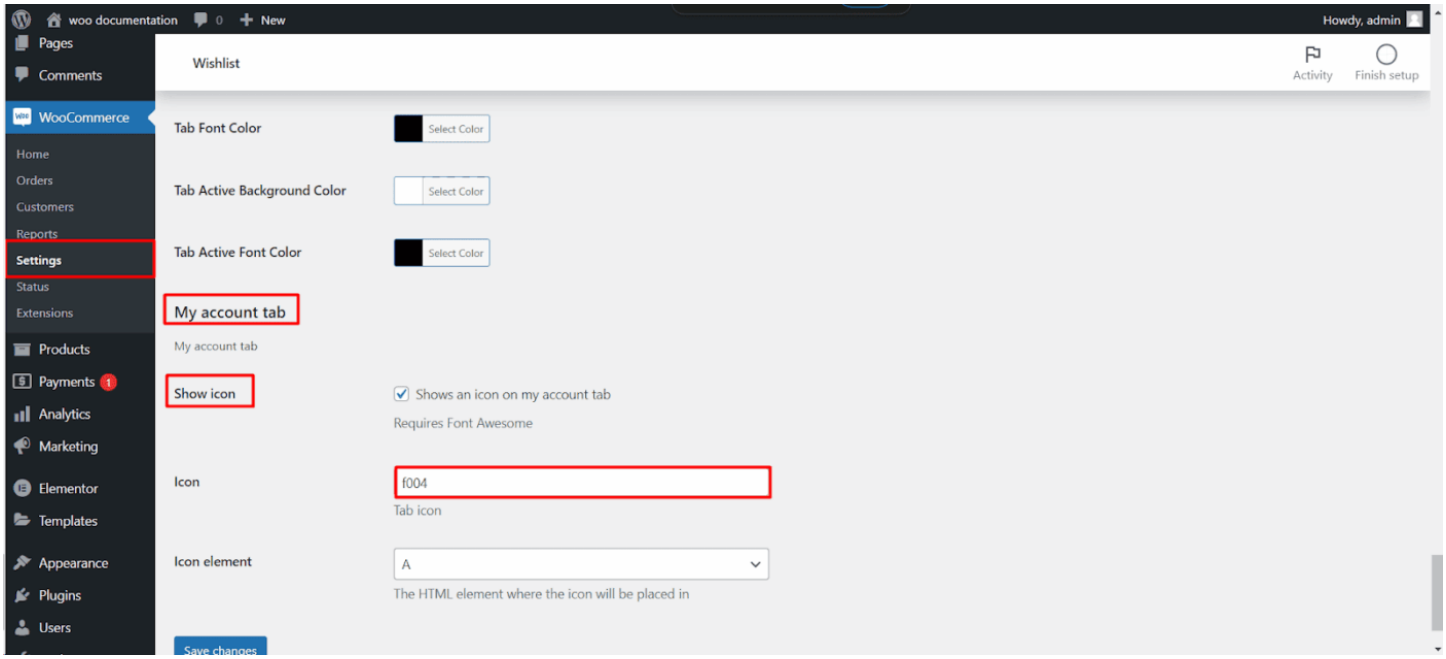
How to · https://wpfactory.com/docs/add-icons-wishlist-tab/

To add an icon to the Wishlist tab on the WooCommerce My Account page, go to **WPFactory > Wishlist > Style** in Wishlist for WooCommerce, tick **Custom style**, then in **My account tab** tick **Show icon** and enter a Font Awesome code such as `f004` (a heart). The icon then appears next to the tab label. The feature is free.



Before you start

- The Wishlist tab must be enabled: **Wishlist Page > My account - Wishlist tab > Wishlist tab** (on by default). See adding the Wishlist tab to My Account.
- Font Awesome must be loaded, as the settings note. Keep **General > Font Awesome > Load FontAwesome** ticked unless your theme already loads it.



Step-by-step

1. Go to **WPFactory > Wishlist** (also reachable at **WooCommerce > Settings > Wishlist**) and open the **Style** tab.
2. Tick **Custom style** (Enable custom style section) at the top.
3. Scroll to **My account tab** and tick **Show icon** (Shows an icon on my account tab).
4. In **Icon** (Tab icon), enter the Font Awesome unicode for the icon you want, for example `f004` for a heart.
5. In **Icon element**, choose where the icon is placed: **A** (inside the tab link, the default) or **LI** (on the list item around it).
6. Click **Save changes**.

Options

Label	Option ID	Default	Free/Pro
Show icon	`alg_wc_wl_style_my_account_tab_icon_enable`	No	Free
Icon	`alg_wc_wl_style_my_account_tab_icon`	`f004`	Free
Icon element	`alg_wc_wl_style_my_account_tab_icon_element`	A	Free

What the customer sees

In the My Account menu, the Wishlist item shows the icon before its label. Choosing **LI** instead of **A** can help if your theme already adds its own icons to account links and the two clash.

If it does not work

- **No icon: Custom style** is not ticked; the My account tab settings only apply with it on.
- **A square or wrong symbol:** Font Awesome is missing, or the code belongs to an icon your Font Awesome version does not include. Enter only the code (for example `f004`), without a backslash or `fa-` prefix.
- **Icon vanished after changing the tab slug:** the icon styling targets the default `my-wish-list` slug, so keep **Tab slug** at its default if you want the icon.
- **Two icons show:** your theme adds its own; switch **Icon element** between A and LI, or turn **Show icon** off.

FAQ

Where do I find icon codes?

In the Font Awesome icon gallery, each icon lists its unicode value (for example `f004`). See managing Font Awesome icons.

Can I change the tab text too?

Yes, with **Wishlist Page > Tab label**.

Is this free?

Yes. The My account tab icon is part of the free Style tab.
