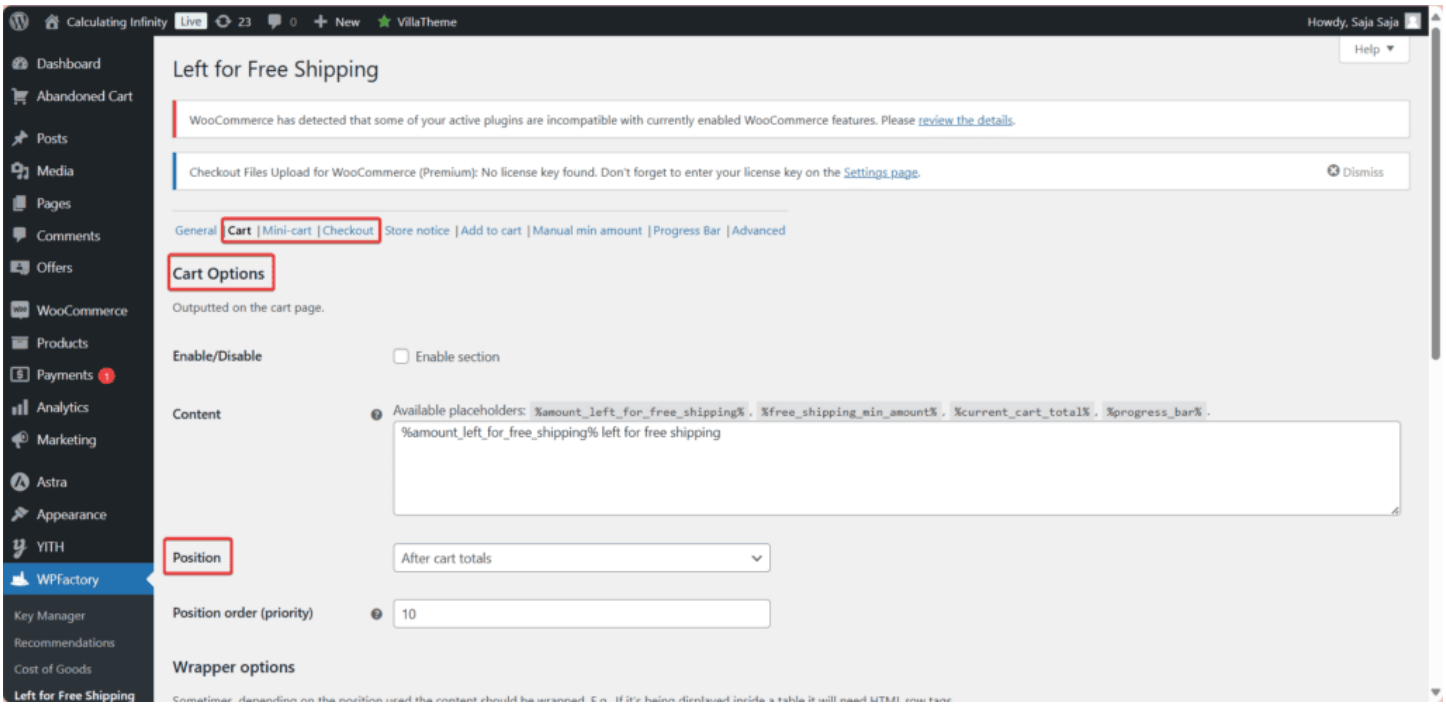
Display Free Shipping Info on the WooCommerce Cart Page

How to · https://wpfactory.com/docs/control-free-shipping-info/

The Cart section of the Free Shipping Bar: Amount Left for Free Shipping for WooCommerce shows the amount left for free shipping on the cart page. This is the section most stores enable first, and it is fully free.

Go to **WPFactory > Left for Free Shipping** (also reachable at **WooCommerce > Settings > Amount Left for Free Shipping**) and open the **Cart** section.



Cart options

Label	Option ID	Default	Fre
Enable section	`alg_wc_left_to_free_shipping_info_enabled_cart`	No	Fre

Label	Option ID	Default	Fre
Content	`alg_wc_left_to_free_shipping_info_content_cart`	%amount_left_for_free_shipping% left for free shipping	Fre
Position	`alg_wc_left_to_free_shipping_info_position_cart`	After cart totals	Fre
Position order (priority)	`alg_wc_left_to_free_shipping_info_priority_cart`	10	Fre
Custom style	`alg_wc_left_to_free_shipping_cart_custom_style_enabled`	No	Pro

The **Position** dropdown offers the full set of WooCommerce cart hooks, from **Before cart** through **After cart totals** to the in-table positions such as **Cart totals: After order total (in table)**. Use **Position order (priority)** to move the message up or down within the position you chose.

Wrapper options for in-table positions

Some positions sit inside a table and need HTML row tags around the content. The **Wrap method** option (`alg_wc_left_to_free_shipping_cart_wrap_method`) controls this:

- **Smart**: wraps automatically only for the in-table positions.
- **Ignore** (default): never wraps.
- **Force**: always wraps using your template.

When wrapping is applied, the **Wrap template** (`alg_wc_left_to_free_shipping_cart_wrap_template`) is used. The default is `<tr><th></th><td>{content}</td></tr>`, which suits table positions.

Custom style (Pro)

On the Cart section, enabling **Custom style** lets you set the text color (`alg_wc_left_to_free_shipping_cart_custom_color`) and font size (`alg_wc_left_to_free_shipping_cart_font_size`). The Custom style toggle here is a Pro feature; the color and size fields still appear so you can preview them.

AMOUNT LEFT FOR FREE SHIPPING

The cart display is free. Amount Left for Free Shipping Pro adds mini-cart and checkout sections, an "add to cart" notice, a site-wide store notice, and AJAX updates.
