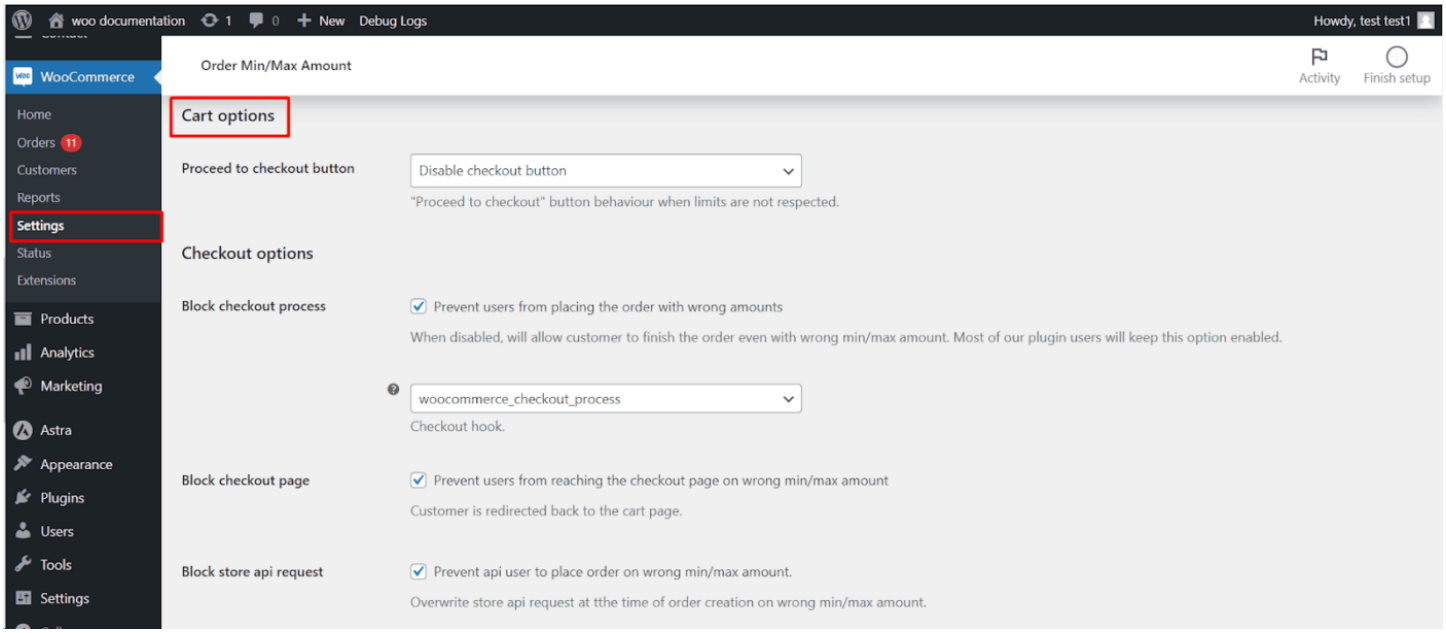
Blocking Checkout When Order Limits Are Not Met

How to · https://wpfactory.com/docs/plugin-login-requirement/

To stop customers from checking out until their cart meets your order limits, use the checkout options in Order Minimum/Maximum Amount Limits for WooCommerce. Order Min/Max Amount can block the checkout page, block the order from being placed, or grey out the "Proceed to checkout" button. This guide covers each real option on the General tab.



Where these options live

Go to **WPFactory > Order Min/Max** (also reachable at **WooCommerce > Settings > Order Min/Max Amount**) and open the **General** tab. The **Checkout options** group holds the settings below.

Label	Option ID	Default	What it does

Block checkout page	`alg_wc_oma_block_checkout`	No	Redirects the custom checkout page while met.
Block checkout process	`alg_wc_oma_block_checkout_process`	Yes	Stops the order from cart still breaks a lim
Block checkout hook	`alg_wc_oma_block_checkout_hook`	`woocommerce_checkout_process`	Which WooCommerc runs on. Switch to `woocommerce_after_` if your theme needs
Disable proceed to checkout button	`alg_wc_oma_disable_block_checkout_btn`	Do not disable	Set to **Disable chec** out the cart's "Proce button when a limit i
Cart block notices	`alg_wc_oma_cart_block_notices_as_errors`	No	Shows cart block me WooCommerce error notices.

Recommended setup

1. Leave **Block checkout process** on, so an order that breaks a limit can never be placed.
2. Turn on **Block checkout page** if you also want to keep customers on the cart page until they fix the order.
3. Optionally set **Disable proceed to checkout button** to **Disable checkout button** for a clear visual cue.
4. Click **Save changes**.

ORDER MIN/MAX AMOUNT

See every feature and the pricing on the Order Min/Max Amount plugin page.

View plugin →

> **Note:** if you use the Pro **Fees** feature to let customers pay their way past a limit instead of being blocked, turn **Block checkout process** off, or the order will still be stopped.
