Default and Site-Wide Free Shipping Notices in WooCommerce

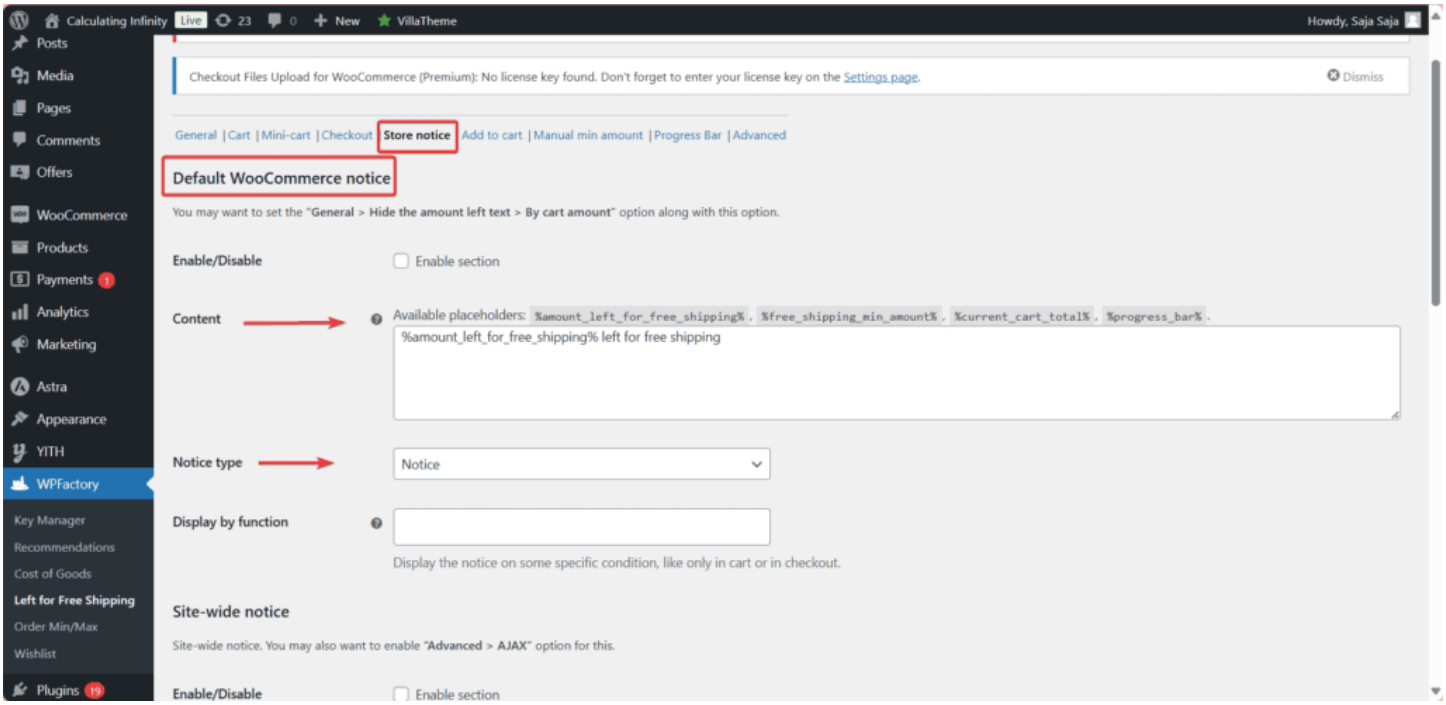
How to · https://wpfactory.com/docs/store-notices-options/

The Store notice section of the Free Shipping Bar: Amount Left for Free Shipping for WooCommerce shows the amount left for free shipping as a WooCommerce notice or as a fixed site-wide banner. This section is a Pro feature.

Before you start

- WooCommerce, active.
- Amount Left for Free Shipping Pro (the Store notice section is Pro).

Go to **WPFactory > Left for Free Shipping** (also reachable at **WooCommerce > Settings > Amount Left for Free Shipping**) and open the **Store notice** section. It contains two independent groups.



Default WooCommerce notice

This group shows the message using the standard WooCommerce notice styles. Consider pairing it with General > Hide the amount left text > By cart amount for a cleaner result.

Label	Option ID	Default
Enable section	`alg_wc_left_to_free_shipping_default_notice_enabled`	No
Content	`alg_wc_left_to_free_shipping_default_notice_content`	%amount_left_for_free_shippi left for free shipping
Notice type (Notice, Error, Success)	`alg_wc_left_to_free_shipping_default_notice_type`	Notice
Display by function (Is Shop, Is Cart, Is Checkout, and so on)	`alg_wc_left_to_free_shipping_default_notice_display_by_function`	(empty, shows everywhere)

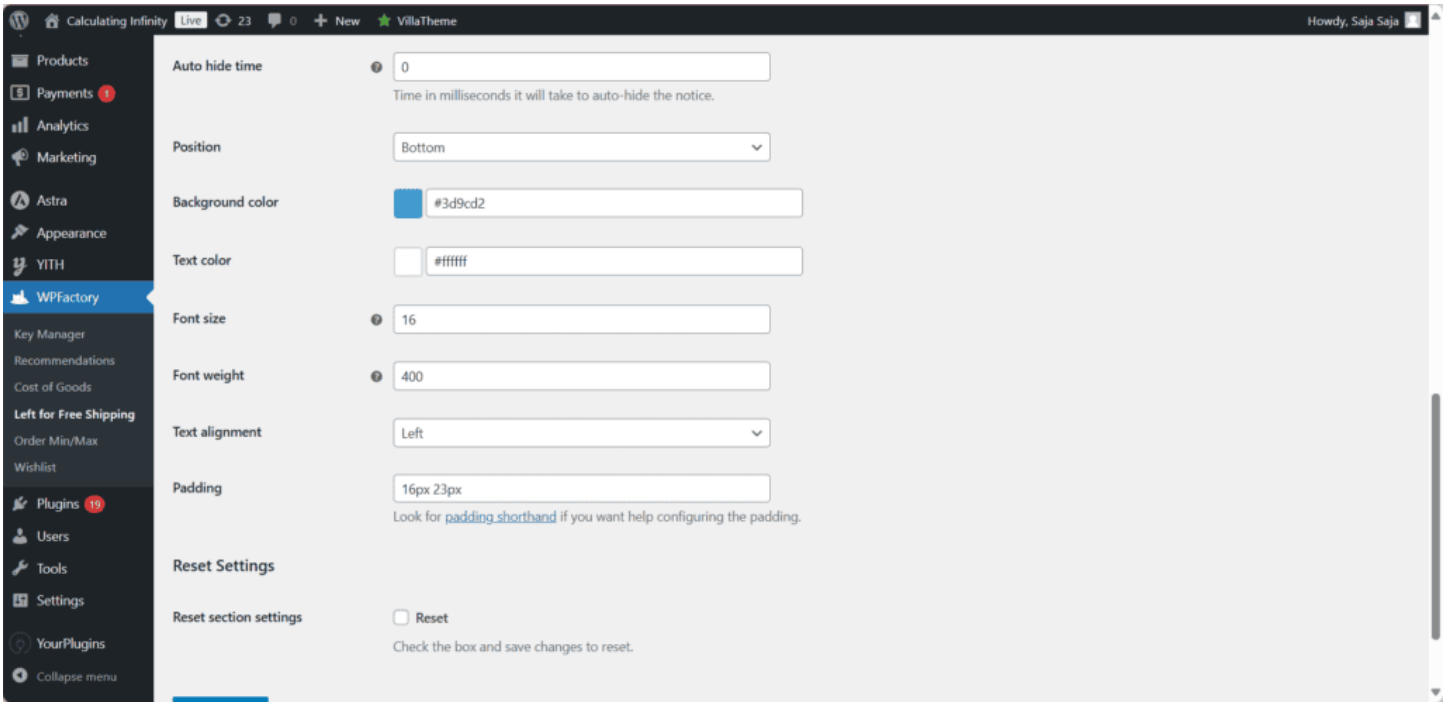
Site-wide notice

This group shows a fixed banner across the whole site. You may also want to enable Advanced > AJAX so it updates as the cart changes.

Label	Option ID	Default
Enable section	`alg_wc_left_to_free_shipping_info_enabled_store_notice`	No

Label	Option ID	Default
Content	`alg_wc_left_to_free_shipping_info_content_store_notice`	%amount_left_for_free_shipping% left for free shipping
Placement hook (the action hook used to print the notice)	`alg_wc_left_to_free_shipping_info_placement_store_notice`	wp_footer
Animation	`alg_wc_left_to_free_shipping_info_animate_store_notice`	No
Auto hide time (milliseconds, 0 keeps it visible)	`alg_wc_left_to_free_shipping_info_store_notice_hide`	0
Position (Top or Bottom)	`alg_wc_left_to_free_shipping_info_position_store_notice`	Bottom

Placement hook is not the same as Position. Placement hook is a text field that names the WordPress action hook where the banner is printed (default `wp_footer`). Position is the separate dropdown that pins the banner to the top or bottom of the screen. The banner also has Background color, Text color, Font size, Font weight, Text alignment, and Padding fields for styling.



AMOUNT LEFT FOR FREE SHIPPING

The Store notice section is a Pro feature of Amount Left for Free Shipping. If you are still on the free version, upgrading unlocks it along with the rest of the Pro toolkit.
