Wishlists Not Saving Properly

Troubleshooting · https://wpfactory.com/docs/wishlist-save-issue/

If wishlists in Wishlist for WooCommerce are not saving, make sure your caching plugin does not cache dynamic content. Then open the Advanced tab in the Wishlist settings, check Ignore cache by loading the wishlist elements via javascript, and clear your browser cache before trying again.

Solution

Ensure your caching plugin **(if you have one)** is not set to cache dynamic content. In the Wishlist settings, navigate to the **"Advanced"** tab and check the **"Ignore cache by loading the wishlist elements via javascript"** option. Clear your browser cache and try again.

WISHLIST FOR WOOCOMMERCE

See every feature and the pricing on the Wishlist for WooCommerce plugin page.
