Duplicate Messages

Troubleshooting · https://wpfactory.com/docs/duplicate-messages/

If users see duplicate messages from the email verification plugin, enable the Clear previous messages option. Go to WooCommerce > Settings > Email Verification, click the Messages sub-tab, and turn on Clear previous messages. This setting prevents the same verification message from being sent to users more than once.

- **Enable "Clear Previous Messages" Option:** Navigate to WooCommerce > Settings > Email Verification and click on the **"Messages"** sub-tab. Enable the **"Clear previous messages"** option to prevent duplicate messages from being sent to users.

CUSTOMER EMAIL VERIFICATION FOR WOOCOMMERCE
