Compatibility Options in the EAN

How to · https://wpfactory.com/docs/ean-compatibility/

The 2D barcode compatibility options in EAN for WooCommerce add product 2D barcodes to documents from other plugins, such as PDF invoice and delivery note plugins, and add an item_barcode_2d column to order exports. Find them at WooCommerce > Settings > Products > EAN > 2D Barcodes > Compatibility, after enabling the 2D Barcodes section.

This comprehensive guide explores the **"2D Barcodes > Compatibility Options"** within the **EAN for WooCommerce plugin,** empowering you to ensure smooth integration of **2D barcode display with** various popular thirdparty plugins used in your online store.

Optimizing 2D Barcode Functionality

The **"2D Barcodes > Compatibility Options"** section allows you to configure the **EAN for WooCommerce plugin** to work effectively alongside other plugins, ensuring consistent and **userfriendly 2D barcode display** across functionalities.

Important Note

Before exploring these options, ensure the **"2D Barcodes > Enable section"** is activated to unlock 2D barcode display functionalities.

Supported Plugins

Print Invoice & Delivery Notes for WooCommerce / WooCommerce PDF Invoices & Packing Slips

- **Enable:** Integrates product **2D barcodes into PDF documents** generated by these plugins for invoices and delivery notes, providing additional **product identification details.**

WooCommerce PDF Invoices, Packing Slips, Delivery Notes and Shipping Labels

- **Enable:** Similar to the above plugins, this option incorporates 2D barcode images into the respective **PDF documents** generated by this plugin.
- **Customization:** You can further configure the position and display format of the **2D barcode within the PDF** documents using the provided options.

WooCommerce Customer / Order / Coupon Export

- **Enable:** Adds a dedicated **"item_barcode_2d"** column to the order items export generated by the WooCommerce Customer / Order / Coupon Export plugin.

Dokan

Enable: This option is currently inactive but reserved for potential future integration with the Dokan multivendor marketplace plugin.

Reset Settings

This option allows you to revert all settings within the **"2D Barcodes > Compatibility Options"** section to their default values.

Admin Access

These settings can be found by navigating to **WooCommerce > Settings > Products > EAN > 2D Barcodes > Compatibility** within your WordPress dashboard.

Maximizing Compatibility

- **Regular Updates:** The developers of the **EAN for WooCommerce plugin actively** maintain compatibility with popular thirdparty plugins. Ensure you keep both the EAN for WooCommerce plugin and other relevant plugins updated to their latest versions.
- **Community Support:** If you encounter any compatibility issues, you can seek assistance from the plugin's support forum or community resources.

By effectively utilizing the **"2D Barcodes > Compatibility Options",** you can ensure that 2D barcode display seamlessly integrates with your existing store setup, fostering a smooth workflow and enhanced user experience.

Important Note

While both admins and customers can access the WooCommerce settings, the **"2D Barcodes > Compatibility Options"** section is specifically for administrative purposes. Customers wouldn't have access to configure these plugin compatibility settings.
