Third-Party Plugin Compatibility for the Free Shipping Bar

References · https://wpfactory.com/docs/free-shipping-third-party-compatibility/

The Free Shipping Bar: Amount Left for Free Shipping for WooCommerce has built-in settings for two third-party plugins. This page lists them and where to find each option.

PW WooCommerce Exclude Free Shipping

Found in the **Compatibility** section at **WPFactory > Left for Free Shipping** (also reachable at **WooCommerce > Settings > Amount Left for Free Shipping**). Use it when some products are flagged as "Exclude Free Shipping" by the PW WooCommerce Exclude Free Shipping plugin.

Label	Option ID	Defa
Disable Free Shipping check (when an excluded product is in the cart)	`alg_wc_left_to_free_shipping_pwwcefs_disable_free_shipping_check`	No
Display notice for excluded products	`alg_wc_left_to_free_shipping_pwwcefs_disable_free_shipping_check_display_msg`	No
Notice text (placeholder `%pw_efs_products%`)	`alg_wc_left_to_free_shipping_comp_pwwcefs_disable_free_shipping_check_msg`	Free availa follow in the %pw_

WooCommerce Currency Switcher (realmag777)

Found in the **Manual min amount** section under Compatibility. When enabled, the manual minimum amount is converted to the currently displayed currency using the WooCommerce Currency Switcher rates.

Label	Option ID	Default	Free/Pro
Convert manual min amount to current currency	`alg_wc_left_to_free_shipping_mma_compatibility_woocs`	No	Pro

Note: HPOS (High-Performance Order Storage) is fully supported. The plugin declares compatibility with WooCommerce custom order tables, so you can enable HPOS without issues.

AMOUNT LEFT FOR FREE SHIPPING

If you need the Pro compatibility options, Amount Left for Free Shipping Pro unlocks them along with the rest of the Pro toolkit. Need a hand? Our team answers every ticket on the Amount Left for Free Shipping support forum.
