What is the difference between the free and Pro versions of your plugins?

Pre Sales · https://wpfactory.com/docs/free-vs-pro-2/

The Pro version of a WPFactory plugin adds features the free version does not have: more customization options and advanced functionality. Pro users also get priority premium support, so their inquiries are addressed with a higher level of attention and efficiency, and user feedback occasionally shapes plugin features.

What Pro adds

- **Additional features:** more customization options and advanced functionality.
- **Priority premium support:** inquiries from Pro users are addressed with a higher level of attention and efficiency.
- **Feedback-driven improvements:** we occasionally incorporate user needs and feedback into plugin features.

This makes the Pro version a good fit for users who need a more robust and tailored solution.
