Quantity Manager: Free vs Pro Features

Pro Features · https://wpfactory.com/docs/free-vs-pro-features/

The free version of Min Max Step Quantity Limits Manager for WooCommerce covers store-wide and per-product minimum, maximum and step rules, cart totals, fixed quantities and the dropdown, all at **WPFactory > Quantity Manager**. Pro adds per-category and per-attribute rules, per-product defaults and fixed lists, shop-page quantity boxes and role targeting.

In the free version, most Pro options appear greyed out in the settings. Here is the split, verified against the plugin.

Included in Free

Feature	Free	Pro
Minimum / Maximum / Step / Default quantity (all products)	Yes	Yes
Per-product minimum / maximum / step	Yes	Yes
Cart-total minimum / maximum / step	Yes	Yes
Fixed (allowed / disallowed) quantities, all products	Yes	Yes
Decimal quantities and rounding	Yes	Yes
Sold individually (all products)	Yes	Yes
Add to cart validation, cart notices, block checkout	Yes	Yes
Initial quantity on page load (min, max, default, lowest fixed)	Yes	Yes
Quantity dropdown (site-wide)	Yes	Yes
Total price by quantity (simple and variable products)	Yes	Yes

Feature	Free	Pro
Price unit (global and per category)	Yes	Yes
Quantity info (single product, archives, category exclusions, custom hook)	Yes	Yes
Buy all stock button	Yes	Yes
Quantity input styling and admin quantity columns	Yes	Yes

Pro only

Feature	Free	Pro
Per-product default / fixed quantities	-	Yes
Per-category and per-attribute quantities	-	Yes
Quantity box, dropdown and price on shop / archive pages	-	Yes
Sell below minimum when stock is low, and hide Add to cart when stock is below the minimum	-	Yes
Step exceptions: change the step when stock is below 2x the step, or allow adding all remaining stock	-	Yes
Subset-sum matching and cart-level fixed quantity	-	Yes
Price unit per product / on archives / in order emails	-	Yes
Per-product dropdown labels, and excluding categories from the dropdown or total price	-	Yes
Disable plugin by URL, by category, or after first order	-	Yes
Role targeting (apply to / exclude specific user roles)	-	Yes

Which version do you need?

- **Free is enough** if one set of rules fits the whole store, or you are happy to set limits product by product.
- **Choose Pro** if rules differ by category or attribute, you want quantity boxes on shop pages, or the rules should apply only to certain user roles.

FAQ

Are per-product minimum and maximum quantities free?

Yes. Tick **Per product** in the Minimum Quantity, Maximum Quantity or Quantity Step section, and a **Product Quantity** box appears on each product. Per-product default and fixed quantities need Pro.

How do I switch from Free to Pro?

Deactivate the free plugin, then install and activate Pro. Pro will not activate while the free version is active. See How to install Quantity Manager.

Is the quantity box on shop pages free?

No. **Enable quantity on archive pages** is Pro. See How to show a quantity box on shop and category pages.

QUANTITY MANAGER

If you need rules that target specific categories, attributes or roles, Pro is the step up.
