Name Your Price: General Troubleshooting

Troubleshooting · https://wpfactory.com/docs/general-troubleshooting-offer/

For general Name Your Price problems, check four things: deactivate other plugins and reactivate them one by one to find a conflict, confirm your theme is compatible, make sure you run a compatible, updated WordPress version, and verify your WordPress user has permission to manage the plugin settings.

Plugin Conflicts

Deactivate other plugins temporarily to see if a conflict is causing problems. Reactivate them one by one to identify the culprit.

Theme Compatibility

Ensure your theme is compatible with the plugin. Check the plugin documentation or contact the developer for known compatibility issues.

WordPress Version

Verify you're using a compatible version of WordPress. Outdated versions can sometimes cause plugin malfunctions. Update WordPress if necessary.

Permissions

Make sure your WordPress user has the necessary permissions to manage the plugin settings.
