How to Allow Orders Above the Limit

Pro Features · https://wpfactory.com/docs/maximum-products-per-user-orders-above-limits/

Letting customers place orders above the limit

Sometimes you want to warn about a limit without blocking the sale. Maximum Products per User for WooCommerce Pro can turn limit errors into non-blocking notices, so customers can still check out, and optionally move those orders to a special status for review. This is a Pro feature in the Advanced section.

Before you start

- Maximum Products per User Pro.

How to enable it

1. Go to **WPFactory > Max Products per User** (also reachable at **WooCommerce > Settings > Maximum Products per User**) and open the **Advanced** section.

2. Under **Orders above limits**, enable **Allow users to place orders with exceeding limits** (`alg_wc_mppu_orders_above_limits_allowed`). Limit messages now appear as notices, not checkout-blocking errors.
3. Optionally enable **Order status** (`alg_wc_mppu_orders_above_limits_change_status`) to move over-limit orders to a status you choose.
4. When status change is on, pick the target status (`alg_wc_mppu_orders_above_limits_status` , default "Above limit") and set a custom label if you want (`alg_wc_mppu_orders_above_limits_custom_status_label`).

Options

Label	Option ID	Default
Orders above limits	`alg_wc_mppu_orders_above_limits_allowed`	No
Change order status	`alg_wc_mppu_orders_above_limits_change_status`	No
Order status used	`alg_wc_mppu_orders_above_limits_status`	Above limit
Custom status label	`alg_wc_mppu_orders_above_limits_custom_status_label`	Above limit

Use cases

- Soft limits: nudge customers with a notice but still take the order.
- Manual review: route over-limit orders to a dedicated status so staff can approve or cancel them.

MAXIMUM PRODUCTS PER USER FOR WOOCOMMERCE

Orders above limits is a Pro feature of Maximum Products per User.
