Setting Minimum/Maximum Amounts by Membership

How to · https://wpfactory.com/docs/membership-level-minimum/

To set minimum and maximum amounts by membership in Order Minimum/Maximum Amount Limits for WooCommerce Pro, go to WPFactory > Order Min/Max > Memberships, tick Amount per membership, and save. Then fill in the minimum and maximum amounts for each membership plan found. It works with WooCommerce Memberships, MemberPress, or SUMO Memberships.

Before you start

- WooCommerce, active.
- A supported membership plugin: WooCommerce Memberships, MemberPress, or SUMO Memberships.
- Order Minimum/Maximum Amount Limits for WooCommerce Pro: the **Memberships** section is a Pro feature.

Step-by-step

1. Go to **WPFactory > Order Min/Max** (also reachable at **WooCommerce > Settings > Order Min/Max Amount**) and open the **Memberships** sub-tab.
2. Tick **Amount per membership** (`alg_wc_oma_by_membership_enabled`) and click **Save changes**.
3. A block of minimum and maximum amount fields appears for each membership plan found. Fill in the values you need for each amount type and save.

Good to know

- An amount of **0** is ignored; a negative value such as **-1** removes the limit for that membership.
- Membership plans are detected from whichever supported plugin is active. If you see no plans, confirm that plugin is set up and has plans defined.

ORDER MIN/MAX AMOUNT

Per-membership limits are part of Order Min/Max Amount Pro.
