MSRP Pricing: Additional Tips

Troubleshooting · https://wpfactory.com/docs/msrp-additional-tips/

Additional tips

The main tips for MSRP (RRP) Pricing for WooCommerce: use the Copy all products prices to MSRP tool in the Admin & Advanced section to fill MSRP fields quickly, test changes on a staging site because the bulk tools have no undo, and check the Display option for the page if MSRP does not appear.

- Use the built-in **Copy all products prices to MSRP** tool (Admin & Advanced section) to populate MSRP fields quickly when your selling prices match the MSRP, then adjust from there.
- Test changes on a staging site before applying them to your live store, especially the bulk tools, which have no undo.
- If MSRP does not appear, check the **Display** option for the relevant page: "Only show if MSRP is higher" hides it when the MSRP is not above your price.

MSRP (RRP) PRICING FOR WOOCOMMERCE
