# How to Add Note Fields to the Wishlist Page

How to · https://wpfactory.com/docs/note-fields-wishlist/

To add note fields in Wishlist for WooCommerce, go to WPFactory > Wishlist, open the Wishlist Page tab, enable Attributes in the Wishlist table columns section, then turn on Note field in the Note field section and save. Customers can then attach a short note to each wishlist item. This feature is free.

## Before you start

The note field appears only when the **Attributes** column is enabled. You will find it in the same settings group, described below.

## Step-by-step setup

1. Go to **WPFactory > Wishlist** (also reachable at **WooCommerce > Settings > Wishlist**).
2. Open the **Wishlist Page** tab.
3. In the **Wishlist table columns** section, enable **Attributes**.
4. Scroll to the **Note field** section and turn on **Note field**.
5. Save changes.

## Note field options

| Label | Option ID | Default |
|---|---|---|
| Note field (enable) | `alg_wc_wl_note_field` | No |
| Field label | `alg_wc_wl_note_field_label` | Note |
| Field type (Text or TextArea) | `alg_wc_wl_note_field_type` | Text |
| Max length | `alg_wc_wl_note_field_max_length` | 20 |
| Note email (include the note in emails) | `alg_wc_wl_note_field_email_enable` | No |

## Troubleshooting

If the note column does not show, confirm the **Attributes** column is enabled under **Wishlist Page > Wishlist table columns**, then clear any page cache and reload the wishlist page.

WISHLIST FOR WOOCOMMERCE

This feature is free. Wishlist for WooCommerce Pro adds item sorting, wishlist import, and admin reporting on top.
