Payment Gateways by Shipping Settings Reference

References · https://wpfactory.com/docs/payments-by-shipping-settings/

This reference lists every setting in Payment Gateways by Shipping Method for WooCommerce with its label, option ID and default. All settings are on one page at **WPFactory > Payment Gateways by Shipping** (also reachable at **WooCommerce > Settings > Payment Gateways by Shipping**), in the **General** section. Every setting is included in both the free and the Pro build.

General Options

Label	Option ID	Default	Free/Pro	What it does
Use shipping instances	`alg_wc_pgbsm_use_shipping_instance`	No	Both	Lists shipping method instances inside shipping zones instead of shipping method types. Save changes after enabling it so the gateway fields reload.

Payment Gateways

One multiselect field per payment gateway registered in WooCommerce, titled with the gateway's name. Leave a field blank to enable the gateway for all methods.

Label	Option ID	Default	Free/Pro	What it does

(gateway title), method type mode	`alg_wc_pgbsm_enable_{gateway_id}`	Empty	Both	Shipping method types that allow the gateway, for example `flat_rate`. A chosen rate matches when its ID starts with the selected method ID.
(gateway title), shipping instance mode	`alg_wc_pgbsm_enable_instance_{gateway_id}`	Empty	Both	Shipping method instance IDs that allow the gateway. A chosen rate matches only the exact instance.

`{gateway_id}` is the gateway ID, for example `cod`, `bacs`, `cheque` or `ppcp-gateway`. Each field has **Select all** and **Deselect all** buttons.

Advanced Options

Label	Option ID	Default	Free/Pro	What it does

Reset chosen payment method	`alg_wc_pgbsm_reset_payment_method_on_totals`	No	Both	Before cart totals are calculated, clears the customer's chosen payment method if it is no longer available. Enable it if cart fees tied to a gateway (for example a COD fee) stay in the totals after the gateway is hidden.

Reset Settings

Label	Option ID	Default	Free/Pro	What it does
Reset section settings	`alg_wc_pgbsm__reset`	No	Both	Check the box and save changes to delete the settings on this page. Only the gateway fields of the current mode are reset.
