Can I use the Pro version on multiple websites?

Pre Sales · https://wpfactory.com/docs/pro-version-multiple-websites/

It depends on your license. WPFactory offers single-site and several multi-site license options (unlimited-site licenses were offered in the past). To see how many websites you can use the Pro version on, check the license details on your WPFactory account page, which list the allowed installations.

How to check your site limit

1. Log in to your account page on WPFactory.
2. Open your license information.
3. Check the allowed installations. This tells you how many sites you can install and activate the Pro version on.

Questions about your license

If you have specific questions about your license or need further clarification, reach out to our support team for assistance.
