How are updates handled for the Pro version?

Pre Sales · https://wpfactory.com/docs/pro-version-update-process/

Updating your Pro version plugins is a straightforward process facilitated by the **WPFactory Helper Plugin**. Here's a step-by-step guide to ensure smooth updates:

Step 1: Download and Install WPFactory Helper

Start by installing the "**WPFactory Helper**" plugin. Once installed, navigate to "Dashboard > Settings > WPFactory Helper." Here, you'll find a list of all WPFactory plugins installed on your site.

Step 2: Enter Your Site URL

After installing the plugin, visit your WPFactory account and generate/get a license key for each purchased plugin by entering your site URL. This can be done in the "Dashboard > Settings > WPFactory Helper" section.

Step 3: Retrieve Your Purchased Items

Return to "Dashboard > Settings > WPFactory Helper" and input the keys you've generated for each listed plugin.

Step 4: Enjoy Seamless Updates and Support

With your licenses activated, you can now benefit from uninterrupted updates and premium support for your plugins. The WPFactory Helper ensures that your plugins are always up-to-date and secure, providing you with the latest features and improvements. If you encounter any issues during the process or have specific questions, our support team is ready to assist you.
