Product Tabs: Free vs Pro Comparison

Pro Features · https://wpfactory.com/docs/pro-vs-free-comparisons-2/

Free vs Pro: what is different in Product Tabs

This is an accurate, code-verified comparison of the free and Pro versions of Additional Custom Product Tabs for WooCommerce. The two versions share the same features; the only difference is how many custom tabs you can create.

Feature	Free version	Pro version
Customize standard tabs (Description, Additional information, Reviews): rename, reorder, remove	Yes	Yes
Custom tab for all products (global)	1 tab	Unlimited
Custom tab per product	1 tab per product	Unlimited per product
Show or hide a global tab by product (list, IDs or SKUs) and by category	Yes	Yes
Tab position control (order number)	Yes	Yes
Automatic variation tabs	Yes	Yes
Shortcodes (product function, product meta, translate)	Yes	Yes
HTML paragraph tags for tab content	Yes	Yes

Note: earlier versions of this page listed tab styling, bulk-edit tab assignment, tag targeting and search integration as Pro features. The plugin does not include those in either version. The genuine Pro difference is the number of custom tabs.

PRODUCT TABS

If you have hit the one-tab limit, Product Tabs Pro removes it for both global and per-product tabs.
