Products Per Page: Free vs Pro Versions Compared

Pro Features · https://wpfactory.com/docs/pro-vs-free-versions-pagenation/

Free vs Pro version comparison

The free version of Number of Products per Page - Pagination Manager for WooCommerce includes the selector, all positions, template controls, cookies, sessions, scopes, and the default value. Pro adds only two features: an editable Select options list, which is fixed to 10, 25, 50, 100, and All in the free version, and the Products per Page widget.

What is Pro

Only two things are gated behind Pro:

- **Editable Select options list** (option id `alg_products_per_page_select_options`): in the free version the list of per-page choices is fixed to `10`, `25`, `50`, `100` and `All`, and the field is read-only. Pro lets you edit this list.
- **Products per Page widget** (option id `alg_wc_products_per_page_widget_enabled`): the sidebar and block-area widget is Pro. The checkbox is disabled in the free version.

Everything else, including all positions, the full template controls, cookies, sessions, scopes and the default value, is available in the free version.

Feature comparison

Feature	Free	Pro
Products per page selector (dropdown or radio)	Yes	Yes
All 7 built-in positions, plus custom action-hook positions	Yes	Yes

Feature	Free	Pro
Template, selector class and style, before and after HTML, radio glue	Yes	Yes
Default per-page value	Yes	Yes
Remember choice via cookie and session	Yes	Yes
Scopes (require and exclude by page type)	Yes	Yes
Form method (POST or GET), Custom CSS	Yes	Yes
Shortcodes (`[alg_wc_products_per_page]`, `[alg_wc_ppp_form]`, `[alg_wc_ppp_translate]`)	Yes	Yes
Editable Select options list	No (fixed, read-only)	Yes
Products per Page widget	No	Yes

PRODUCTS PER PAGE

If the fixed list of per-page options or the sidebar widget is what you need, those are Pro features of Products per Page. Upgrading takes a couple of minutes and unlocks both.
