Free vs Pro: Stock Triggers Feature Comparison

Pro Features · https://wpfactory.com/docs/pro-vs-free-versions-stock/

This table compares the free and Pro versions of Automated Stock Update Triggers for WooCommerce , based on how the plugin actually gates its features in code. In short: the full stock triggering engine, both decrease and increase, ships in the free version. Pro adds custom triggers and custom order statuses.

Feature	Free	Pro
Decrease stock on chosen triggers	Yes	Yes
Increase (restore) stock on chosen triggers	Yes	Yes
Standard triggers (7 order statuses, Payment complete, Checkout order processed, Checkout update order meta)	Yes	Yes
Custom order statuses in the Triggers list	No	Yes
Custom triggers (type your own action hook names)	No	Yes
Remove standard WooCommerce triggers	Yes	Yes
Force order stock update	Yes	Yes
Require products / Require product categories	Yes	Yes
Adjust line item product stock on admin orders	Yes (core statuses)	Yes (plus custom statuses)
Admin new order stock action	Yes	Yes
Decrease stock / Increase stock bulk actions	Yes	Yes

Feature	Free	Pro
Debug logging	Yes	Yes
HPOS (High-Performance Order Storage) compatible	Yes	Yes

Note: the only differences between the versions are the two Pro rows above: custom order statuses in the Triggers list, and free-form custom triggers. Every other feature, including Increase Stock, bulk actions, and debug logging, works in the free version.

AUTOMATED STOCK UPDATE TRIGGERS FOR WOOCOMMERCE

If you use custom WooCommerce order statuses or need to trigger stock changes on your own action hooks, Automated Stock Update Triggers for WooCommerce Pro adds exactly that.
