Reset a Conditional Shipping Settings Section

References · https://wpfactory.com/docs/reset-conditional-shipping-settings/

To reset a Conditional Shipping settings section back to its defaults, use the "Reset section settings" checkbox in Conditional Shipping for WooCommerce: Restrict Shipping Options by Anything. Every settings section has its own reset control, so you can clear one section without disturbing the rest.

> **Important:** reset is destructive. It returns that section's options to their defaults and cannot be undone, so use it deliberately.

How it works

The General section and each condition section have a **Reset section settings** checkbox. Ticking it and saving resets only THAT section's options to their defaults. It is a per-section reset, not a global reset, so resetting the Cities section leaves your Order Amount and General settings untouched. When the reset runs, a "Your settings have been reset" notice appears.

Step-by-step

1. Go to **WPFactory > Conditional Shipping** (also reachable at **WooCommerce > Settings > Conditional Shipping**).
2. Open the section you want to reset, for example **General** or a condition such as **Date/Time**.
3. Tick **Reset section settings** (`alg_wc_cond_shipping_{section}_reset`).
4. Click **Save Changes**. That section's options return to their defaults and a "Your settings have been reset" notice is shown.

Options reference

Label	Option ID	Type	Default	Free/Pro

Reset section settings	`alg_wc_cond_shipping_{section}_reset`	Checkbox	No	Free

Replace `{section}` with the section you are resetting. Each condition section has its own reset key, and so does the General section.

CONDITIONAL SHIPPING
