Setting Minimum/Maximum Amounts per User

Getting Started · https://wpfactory.com/docs/setting-minimum-quantities/

To set minimum and maximum amounts per user in Order Minimum/Maximum Amount Limits for WooCommerce Pro, go to WPFactory > Order Min/Max > Users and tick Amount per user. Then set the per-user amounts on each customer's profile, and use the Guest Fallback amounts for shoppers who are not logged in. This is a Pro feature.

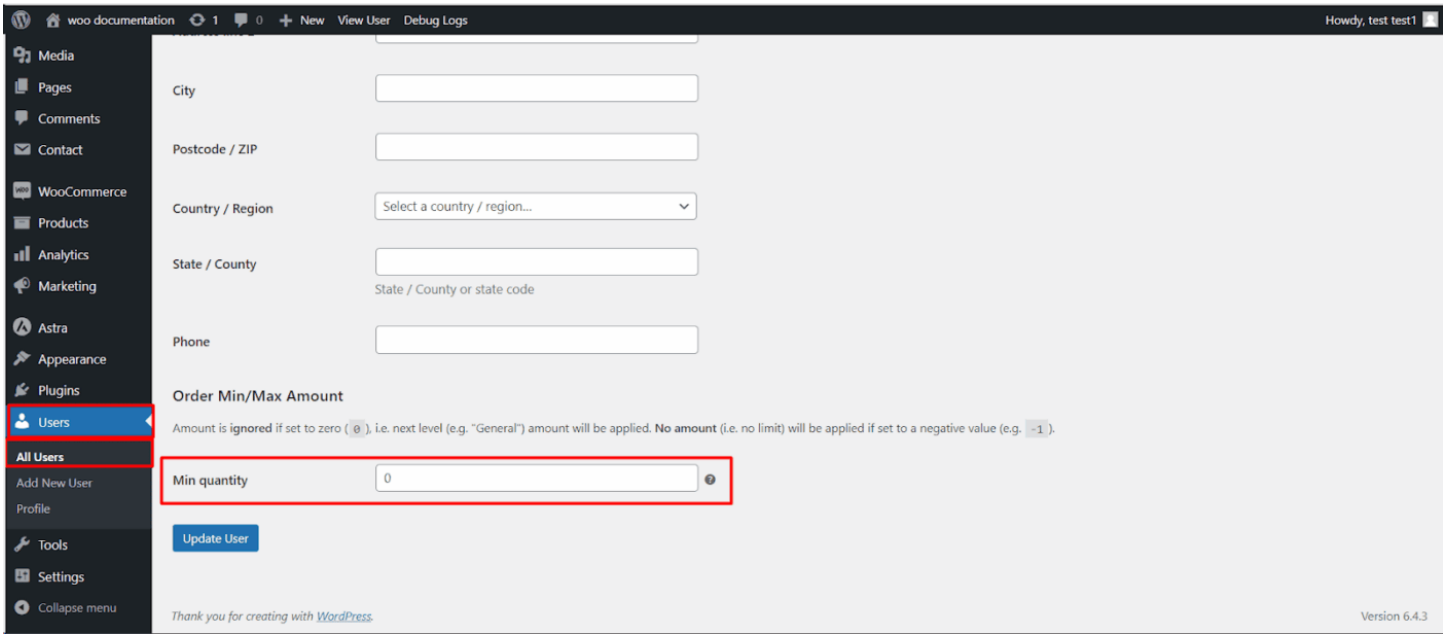

Before you start

- WooCommerce, active.
- Order Minimum/Maximum Amount Limits for WooCommerce Pro: the **Users** section is a Pro feature.

Step-by-step

1. Go to **WPFactory > Order Min/Max** (also reachable at **WooCommerce > Settings > Order Min/Max Amount**) and open the **Users** sub-tab.

2. Tick **Amount per user** (`alg_wc_oma_by_user_enabled`).
3. Set the per-user amounts on the customer's own profile, and use the **Guest Fallback** amounts here for shoppers who are not logged in.
4. Click **Save changes**.

Good to know

- Per-user amounts are stored on the user as meta keyed `_alg_wc_oma_{min|max}_{type}` (for example `_alg_wc_oma_min_sum`).
- An amount of **0** is ignored; a negative value such as **-1** removes the limit for that user.
- Use **Priority** (`alg_wc_oma_by_user_priority` , default 20) to decide whether user limits win over other sections.

ORDER MIN/MAX AMOUNT

Per-user limits are part of Order Min/Max Amount Pro.
