Sitewide Discount Settings Reference

References · https://wpfactory.com/docs/sitewide-discount-settings/

This is the complete settings reference for Sitewide Discount for WooCommerce: every label, option ID and default, grouped by section. Find the settings at **WPFactory > Global Shop Discount** (also reachable at **WooCommerce > Settings > Global Shop Discount**). All settings are available in both the free and Pro versions.

General section

Advanced Options

Label	Option ID	Default	Free/Pro

Apply discounts in backend (show discounted prices in the admin area, such as the Products list)	`alg_wc_global_shop_discount_load_in_admin`	No	Free
Stop on first matching discount group	`alg_wc_global_shop_discount_stop_on_first_discount_group`	Yes	Free
Taxonomies (taxonomies offered as Include/Exclude filters in each group)	`alg_wc_global_shop_discount_taxonomies`	Product categories, Product tags	Free
Taxonomies sorting in admin settings (Name, ID, Parent)	`alg_wc_global_shop_discount_taxonomies_orderby`	Name	Free
Cache product prices (fixes discounts applied twice, for example with currency switchers)	`alg_wc_global_shop_discount_cache_product_prices`	No	Free

Discount Group sections

Each group is its own section, named **Discount Group #1**, **#2** and so on, or by its Admin title. Group options are stored as arrays keyed by group number, so the option ID for group 1 is written with `[1]`, for group 2 with `[2]`.

General group options

Label	Option ID	Default	Free/Pro
Enabled	`alg_wc_global_shop_discount_enabled[1]`	Yes	Free
Admin title (optional, visible only to admins)	`alg_wc_global_shop_discount_admin_title[1]`	Discount Group #1	Free

Rounding (No rounding, Round, Round up, Round down)	`alg_wc_global_shop_discount_round_func[1]`	No rounding	Free
Date(s) (empty means always active)	`alg_wc_global_shop_discount_dates_incl[1]`	Empty	Free
Product scope (All products, Only products that are already on sale, Only products that are not on sale)	`alg_wc_global_shop_discount_product_scope[1]`	All products	Free

Filters

Every filter defaults to empty, which means no restriction.

Section and label	Option ID	Default	Free/Pro
Products > Include	`alg_wc_global_shop_discount_products_incl[1]`	Empty	Free
Products > Exclude	`alg_wc_global_shop_discount_products_excl[1]`	Empty	Free
Product categories > Include	`alg_wc_global_shop_discount_categories_incl[1]`	Empty	Free
Product categories > Exclude	`alg_wc_global_shop_discount_categories_excl[1]`	Empty	Free
Product tags > Include	`alg_wc_global_shop_discount_tags_incl[1]`	Empty	Free
Product tags > Exclude	`alg_wc_global_shop_discount_tags_excl[1]`	Empty	Free
Other taxonomy > Include / Exclude	`alg_wc_global_shop_discount_{taxonomy}_incl[1]`, `alg_wc_global_shop_discount_{taxonomy}_excl[1]`	Empty	Free

Users > Exclude	`alg_wc_global_shop_discount_users_excl[1]`	Empty	Free
User roles > Include	`alg_wc_global_shop_discount_user_roles_incl[1]`	Empty	Free
User roles > Exclude	`alg_wc_global_shop_discount_user_roles_excl[1]`	Empty	Free

For taxonomies added under **General > Taxonomies**, `{taxonomy}` is the taxonomy name, for example `pa_color`.

Tools section

Tick a tool and click **Save changes** to run it. The box unticks itself after the run. There is no undo.

Label	Option ID	Default	Free/Pro
Delete transients (clears the cached product list used by `[alg_wc_gsd_products]`)	`alg_wc_global_shop_discount_tool_delete_transients`	No	Free
Save prices in DB for all products (writes each discounted price into the product's sale price)	`alg_wc_global_shop_discount_tool_save_all_products`	No	Free

> **Note:** after running **Save prices in DB for all products**, disable your discount groups. If they stay on, the discount is applied again on top of the saved sale prices.

Reset settings

The General and Discount Group sections end with **Reset section settings** (option ID `alg_wc_global_shop_discount_{section}_reset`, default No). Tick it and save to restore that section's defaults.
