Stock History Free vs Pro

Pro Features · https://wpfactory.com/docs/stock-history-free-vs-pro/

The free version of Stock History & Reports Manager for WooCommerce includes all stock tracking, the product history box, the Report and History sections, CSV exports, the restocked shortcode and the tools. Pro adds email: snapshot emails and daily report emails, set up at **WPFactory > Stock Snapshot > Emails**.

What you see in the free version

The **Emails** section is visible in the free version so you can see what it offers, but the **Emails** and **Daily report emails** checkboxes are disabled and a help tip explains that Pro is needed. The other email fields can be edited but have no effect until Pro is active.

Upgrading from free to Pro

1. Download the Pro zip from your WPFactory account.
2. Go to **Plugins > Add New Plugin > Upload Plugin**, upload the zip and activate it.
3. While Pro is active, the free copy steps aside automatically. Your snapshots and settings are kept, because both versions use the same stored data.
4. Go to **WPFactory > Stock Snapshot > Emails** and set up your emails. See How to Email WooCommerce Stock Reports Automatically.

STOCK HISTORY

Emails are a Pro feature of Stock History. If you are still on the free version, upgrading takes a couple of minutes and unlocks snapshot and daily report emails.
