Video: Set Up Upsell, Cross-sell and Related Products Popups

How to · https://wpfactory.com/docs/video-for-cross-sales/

This video walks through setting up upsell, cross-sell and related products popups with WooCommerce Sales Bump: Upsell, Cross-sell & Related Products Popup. The same video plays inside the plugin at **WPFactory > Upsell, Cross-sell & Related Products Popup Pro > Instructions**. A written summary, checked against version 3.1.1, follows below.

Setup summary

1. Install and activate Sales Bump. WooCommerce must be active.
2. Edit a product and open **Product data > Linked Products**. Add the products you want to suggest in **Upsells** or **Cross-sells**, then click **Update**.
3. Go to **WPFactory > Upsell, Cross-sell & Related Products Popup Pro > General**. Choose whether the popup shows on mobile, whether product pages fall back to related products when a product has no upsells, and whether shop pages show a popup.
4. Under **Archive/Shop Page Options**, pick **What to show** (Upsells, Cross-sells or Related products), then set **Limit** and **Columns**. Click **Save changes**.
5. On the **Style** tab, set **Popup window width**, **Popup margin top** and **Border radius** if you want to change the look.
6. Visit your store and click **Add to cart** on a product page or the shop page to see the popup.

If your screens look different

Recent versions changed the settings screen. In version 3.0.0 the settings moved to the **WPFactory** menu. In version 3.1.0 they were split into the **General**, **Style** and **Instructions** tabs, the **Limit** and

Columns options were added, and shoppers can now close the popup by clicking outside it or pressing Esc.
