How to Add a Buy All Stock Button

How to · https://wpfactory.com/docs/woocommerce-buy-all-stock-button/

The Buy all stock button lets a customer add every available unit of a product to the cart in one click. It is handy for clearance and wholesale lots. This feature is free in the Min Max Step Quantity Limits Manager for WooCommerce and works with products that have managed stock.

Before you start

- The product must have **Manage stock** enabled (WooCommerce **Inventory** tab) with a stock quantity set.

Steps

1. Go to **WPFactory > Quantity Manager** (also reachable at **WooCommerce > Settings > Product Quantity**).
2. Open the **General** section and find **Buy all stock button**.
3. Tick **Create a Buy all stock button on product page** (`wpfmmsq_buy_all_stock_button_enabled`).
4. Optionally set the **Button label**, **Button class**, **Alert message** and **Success message**.
5. Click **Save changes**.

Options reference

Label	Option ID	Default	Free/Pro
Buy all stock button (enable)	`wpfmmsq_buy_all_stock_button_enabled`	No	Free
Button label	`wpfmmsq_buy_all_stock_button_label`	Buy all stock	Free
Success message	`wpfmmsq_buy_all_stock_button_success_msg`	%qty% x %product_title% has been added to your cart.	Free

Note: the button only works on products (or selected variations) with managed stock. On a variation without managed stock, the **Alert message** is shown instead. The **Success message** accepts `%qty%` and `%product_title%`.

QUANTITY MANAGER

This feature is free. Min Max Step Quantity Limits Manager for WooCommerce Pro adds per-category and per-attribute quantity rules alongside it. Per-product minimum, maximum and step are free.
